

Net packaging

AVN 966

Application Description:

In spite of the gentle product handling, the AVN 966 achieves a high performance and reliance.

The net clipping machine AVN 966 is concipated for packing sensitive products that have been previously accumulated by a weighing or counting machine into nets. The products are transported into the net extremely gently via a conveyor.

Net packaging

AVN 966

■ Technical Data:

Field of application: Apples, pears and other sensitive products

Performance Range: max. 40 packs/min

Employment: Net tube width 230 mm

Weight (kg): approx. 900

Dimensions (mm):
- Length approx. 2,880
- Width approx. 1,390
- Height approx. 1,170

Electrical rating (kW): 1,50

Air consumption (l/min at 6 bar): 50

Packaging material: Tutular net

Ancillary equipment:
- Transporting units for labelling material
- Printers for printing on label tails or punched labels
- Thermo-barcode printer
- Integrated take-away conveyor
